Comments:

It is always a good thing to start out with a victory. The girls were able to put in a solid performance tonight. Lexi and Hannah ran solid races for the

first race of the season. Hannah did a great job finishing in the top five in her first race as a Bluejay Dianna Snow was a good surprise coming in as the number three runner. Kailey, Emily, Allison and Corgan ran with great determination. We tend to compare times from year to year and sometimes that can be a good or bad thing. The girls were a little disappointed because there times were slower than last year but cross country is an ever changing event. Even at the same venue, no race is ever the same; too many variables. I felt the girls were tough and ran well. We will cut down our split and work diligently to get better every day.

This was one of the best first season meets our boys have had. With our 1-5 split being only 1:18. That is a very good split for the first race of the year. Connor Hall led from the gun to defend his title and Ricky King, who has had a great couple of weeks of practice finished second and Cale Patterson, who seems to love great finishes passed a competitor in the last few yards to seal the number three spot. Mason Urban, running his first race ran very well beating his time trial time by about twenty seconds and Tucker Gosselin picked up where he left off last year with a personal record. Austin and Dylan also ran good races. This is a great start for the boys. Now they need to use this race to build on and get ready for a super tough race at Wamego next week.

Thanks,

George Rossi
